### Mercury

The only visit to Mercury was a flyby made by the Mariner 10 spacecraft in 1974.

Mercury, often identified with the Greek god, Hermes, is the messenger of the gods in Roman mythology.

A year in Mercury is equal to 87.97 Earth Days

A day in Mercury is equal to 58.65 Earth Days

If you weigh 100 lbs, your weight on Mercury would be 38 lbs. (Multiply your actual weight by 0.38)
